WORK EXPERIENCE

Toro Cloud   **Jan. 2025 – Apr. 2025**
Frontend Developer (Intern)   *Clark, Pampanga*
- Studied advanced web development technologies including React, TypeScript, Node.js, and testing frameworks.
- Built and presented a complete web application project to the CEO as the culmination of the internship.

PROJECTS

Spoonfed - Cookbook and Recipe Search Website   **February - March 2025**
Personal Project | React, Node.js, Express, MongoDB
- Built a full-stack recipe management app with Node.js and Express, enabling users to search, save, and organize recipes using a public API.

UActTrack - University Activity Management and Tracking Platform   **June - November 2024**
Capstone Project | Vue.js, Laravel, MySQL
- Created a full-stack web platform for managing university student activities, featuring role-based access, submission tracking, and MySQL database integration.

iTrack - Inventory Management Mobile App   **January - May 2024**
School Project | Flutter, Firebase
- Developed a cross-platform mobile app for inventory management with Firebase-based authentication, secure storage, and real-time CRUD operations.

EDUCATION

University of the Assumption   **2021 - June 2025**
Bachelor of Science in Information Technology   *San Fernando, Pampanga*
- Cum Laude
- Presented capstone project at the International Conference on Information Technology Education (ICITE) 2024 in South Korea, showcasing innovative research and development in activity management systems.
